# 18ai Program Catalogue

AI education, engineering, enterprise enablement and wellbeing — one connected ecosystem.

## Explore the 18ai offerings

Each program is designed around practical activities, clear learning goals and responsible technology use. Select the track that fits your learners or institution.

## AI Explorers | Schools & Young Learners

A safe, age-appropriate first encounter with artificial intelligence.

Audience: Classes 3–10; school leaders, teachers, parents

Format: Awareness workshops; 4-week school clubs; educator-supported classroom activities

## AI Builders | Engineering Students & Colleges

From introductory concepts to real AI applications through guided, hands-on projects.

Audience: Engineering students, faculty and placement teams

Format: Introductory seminars; 2–4 week bootcamps; project studios

## AI Accelerators | Working Professionals

Apply AI effectively and responsibly in everyday professional workflows.

Audience: Technology and non-technology professionals; team leaders

Format: Role-specific workshops; short applied learning pathways

## AI Enterprise | Organizations & Teams

Move from AI awareness to practical adoption with outcome-led enablement.

Audience: Corporate teams, engineering leaders and business transformation groups

Format: Discovery sessions; tailored workshops; engineering enablement

## YogaLife | Yoga & Wellbeing

An early-stage education concept blending yoga instruction, mindfulness and healthy habits.

Audience: Adults and corporate wellness coordinators

Format: Instructor-led introductory sessions; digital habit education (planned)
